

8-Outlet Surge Protector

8000062

INSTALLATION MANUAL

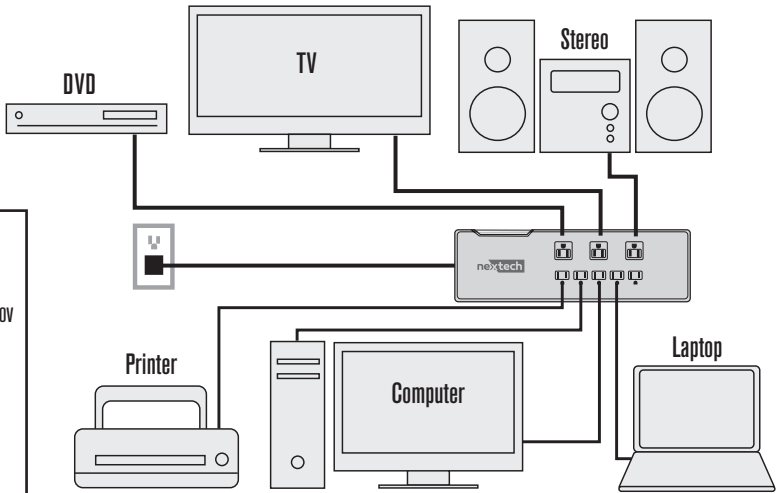

Power Connections:

Your Nexxtech™ Surge Protector should be plugged directly into a properly grounded outlet. All connected equipment should be plugged directly into your surge protector. Use of any extension cord, adapter, other grounding wires or electrical connections in conjunction with the surge protector will void all warranties.

2-in-1 Power ON/OFF and Circuit Breaker Switch

The power switch integrates a 15-amp overload resettable circuit breaker. The reset switch allows user to reset the circuit breaker after an overload condition has tripped the circuit breaker. Disconnect all equipment from surge protector before resetting the unit.

SPECIFICATIONS:	
Load Rating:	15 amperes
Line Voltage:	120V AC, 60Hz, 1800 watts
Clamping Voltage:	L-N 400V, L-G 400V, N-G 500V
Maximum Surge Current:	144,000 amperes
Maximum Spike Voltage:	6kV
Energy Dissipation:	2160 Joules
Response Time:	<1 nanosecond
EMI/RFI Noise Filter: Frequency:	150KHz ~ 100MHz
Attenuation:	Up to 40dB
Surge Protected Indicator:	Blue
Cord Length:	1.8m (6 ft.)

Compatible with major TVs, PCs, Mac, and Linux, desktop and notebook computers

Indicator Light:

“Protected”: This indicator light will light up when the unit is plugged in. The “Protected” light indicates that the unit surge protection circuitry is functioning properly. If the light is off, it indicates that your surge unit has reached lifetime capacity and is no longer able to protect against surges. The unit needs to be replaced by a new surge protector.

“Grounded”: This indicator light will light up when the unit is turned on. This “Grounded” light indicates that the unit is properly grounded and the wall outlet is properly wired. If the light is off when the unit is plugged in, it indicates either a ground-wiring problem or the wall outlet is not wired properly.

THE SOURCE – WARRANTY

The Source warrants that this product will be free from defects in materials and workmanship for a period of twelve (12) months from the date of purchase. Within this period, simply take the product and your proof of purchase to any The Source store or participating dealer and the product will be replaced (where available) without charge. Any product which has been subject to misuse or accidental damage is excluded from this warranty.

This warranty is only applicable to a product purchased through The Source company-owned stores or participating dealers in Canada where the warranty is included with the product. While this warranty does not confer any legal rights other than those set out above, you may have additional statutory rights which will vary under the laws of the various countries, states, provinces and other governmental entities in which The Source operates. This warranty is subject to all statutory rights you may have in Canada.

\$15,000 Connected Equipment Guarantee*
protects the equipment you connect to this surge protector.
*Certain restrictions apply.

Connected Equipment Limited Guarantee

Powertech Industrial Co. Ltd., (hereafter named “manufacturer”) provides the Connected Equipment Limited Guarantee to the original purchaser of any Nexxtech™ branded Surge Protectors set forth below for the lifetime of the product (which means until the Surge Protector has exceeded its capacity to protect against surges and spikes). Manufacturer will repair or replace, at its discretion, any equipment which is damaged by a transient voltage surge/spike (an “occurrence”) while properly connected through a Nexxtech™ Surge Protector to a properly wired AC power line with a protective ground (the “connected equipment”), subject to the following limitations, exclusions and maximum replacement values:

Model 6118349	1-Outlet Power Surge Wall Tap Up to a maximum of \$10,000.00
Model 6118127A	6-Outlet Surge Protector Up to a maximum of \$15,000.00
Model 6116002	6-Outlet Surge Protecting Wall Tap Up to a maximum of \$15,000.00
Model 8000061	6-Outlet Surge Protector Up to a maximum of \$15,000.00
Model 6118121	6-Outlet Smart Surge Power Block Up to a maximum of \$25,000.00
Model 8000062	8-Outlet Surge Protector Up to a maximum of \$25,000.00
Model 6118122	Smart Surge Power Wall Tap Up to a maximum of \$35,000.00
Model 6118123	Smart Surge Power Strip Up to a maximum of \$50,000.00
Model 6118124	Smart Surge Power Block Up to a maximum of \$65,000.00
Model 6118110A	Surge Protector Up to a maximum of \$75,000.00

These maximum replacement amounts also apply in respect of any successor model or product.

This is a limited guarantee, and is subject to the limitations and exclusions set forth.

The guarantee will be voided if one the following events occur: (i) use of the Surge Protector with aquariums; (ii) use of the Surge Protector that is not properly grounded; (iii) use of any extension cord, adapter, other grounding wires or electrical connections in conjunction with Surge Protector; (iv) use of multiple outlet, surge protector or UPS (Uninterruptible Power Supply) device in conjunction with the Surge Protector; (v) any repair or modification of the Surge Protector by a facility not authorized by manufacturer; (vi) the Surge Protector in use during an occurrence is not provided to manufacturer for inspection (upon manufacturer’s request at the sole expense of claimant); (vii) manufacturer determines that the Surge Protector has been improperly installed, or that the connected equipment was not used under normal operating conditions; or (viii) manufacturer determines that the damage did not result from the occurrence, or that no occurrence in fact took place. If manufacturer determines that the Connected Equipment Limited Guarantee covers the damaged equipment, manufacturer, at its sole option, will either (A) Authorize repair of the connected equipment, at a cost up to the maximum amount set forth above; (B) Provide the claimant with an equivalent equipment replacement; or (C) Reimburse the claimant for the present fair market value of the damaged connected equipment. The fair market value of the equipment will be determined according to the current value specified in the most recent edition of the Orion Blue Book by Orion Research Corporation, Roger Rohrs Publisher or any successor book, as determined by manufacturer from time to time.

The Connected Equipment Limited Guarantee only protects against damage to properly connected equipment where manufacturer has determined, at its sole discretion, that the damage resulted from an occurrence, and does not protect against acts of God such as flood or earthquake, war, vandalism, theft, normal-use wear and tear, erosion, depletion, damage due to low voltage disturbances, including brownouts or sags, non-authorized program or system equipment modification, or damage to equipment that was not directly connected to the Surge Protector. The guarantee will not cover claims for damage resulting from telephone-line, data network-line, or coaxial-line transients, unless the equipment is properly connected to the Surge Protector in accordance with the installation instructions provided with the device. If your device does not have phone, data network or coaxial protection, the guarantee is null and void if an occurrence damages your equipment through the phone, data network or coaxial lines.

The Connected Equipment Limited Guarantee does not cover:

- Loss of software, media, stored information, or data of any kind
- Loss of business profits, business interruption, or downtime
- Damage associated with sustained over-voltages, vandalism, theft, normal wear and tear, obsolescence, abuse, misuse, non-authorized alteration or catastrophic events
- Incidental, indirect, special or consequential damages arising out of the use of this surge protector, including without limitation all freight, mileage, travel time, and insurance charges associated with coverage claims
- Product purchased, serviced, or used outside Canada

This is the sole guarantee of manufacturer. There are no other warranties, expressed or implied, except as required by law, including any implied warranty or condition of quality, merchantability or fitness for a particular purpose, and such implied warranties, if any, are limited in duration to the terms of this guarantee. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damage, so the above limitations may not apply. This limited guarantee gives you specific legal rights. You may also have other rights which vary from province to province. Damage claims against the damaged connected equipment must be made within 15 days from the date of occurrence and must be accompanied by a receipt for the damaged surge protector and by a receipt for the damaged connected equipment or the guarantee is void.

Manufacturer reserves the right to review the damaged Surge Protector, the damaged connected equipment, the site where the damage occurred, as well as the right to negotiate the repair cost. Manufacturer also reserves the right to be subrogated under any existing warranty from the manufacturer of the connected equipment or under any existing insurance policies the claimant may have. All costs of shipping the Surge Protector and the damaged equipment to manufacturer will be the sole responsibility of the claimant. If manufacturer determines that it is impractical to ship the damaged equipment to manufacturer, in its sole direction, manufacturer may designate a repair facility to inspect and estimate the cost to repair such equipment. Damaged equipment must remain available for inspection until the claim is finalized. If the damaged equipment no longer exists before the claim is finalized, this guarantee will be voided.

To receive service under this guarantee you must be the original purchaser of the Surge Protector.

To file a claim, claimant must contact Customer Service at 1-888-936-6878. The following information must be submitted:

- a. Model number of Nexxtech™ Surge Protector
- b. The description and purchase receipts of the equipment (year, make and model) that was connected to the Nexxtech™ Surge Protector at the time of occurrence
- c. Full description of the damage (occurrence)
- d. The date of the occurrence
- e. Location and date of purchase of Nexxtech™ Surge Protector
- f. Copy of original receipt for Nexxtech™ Surge Protector

The Customer Service Department will provide the claimant with a Connected-Equipment Authorization number (CA#). Manufacturer will then determine, at its sole discretion, whether the damaged Surge Protector and/or the damaged connected equipment should be sent to the manufacturer, or to an independent repair facility. If manufacturer so requests, the claimant must, at his/her own expense, send the damaged Surge Protector and/or damaged connected equipment, along with a copy of the sales receipt, to the specified location, in secure packaging (to prevent further damage) with the CA# clearly displayed on the outside of the package, with a hardcopy full written description of the problem, and with the claimant’s name, address, and daytime phone number enclosed.
