Warning

- For your safety do not wear or keep headphones in the vicinity (closer than 10cm) of a pacemaker
- Do not insert plug into electric sockets
- Supervise children when using equipment, this product is not a toy.
- Headphone listening at high volume levels—particularly, over extended periods of time—may damage your hearing
- The operation of switches on your hi-fi system or plugging in the headphones may cause clicks which at high volume setting may affect your hearing. Therefore, always set the volume control to minimum before switching between different sources (tuner, turntable, CD player, etc.) or plugging in the headphones
- For traffic safety, do not use headphones while driving or cycling

Troubleshooting

1. There is no sound coming from the earbuds.

- Please check the volume on your audio device to make sure it is outputting sound
- Please make sure that the 3.5mm plug is fully inserted into your audio device. Sometimes a case or protective cover can prevent a proper connection
- Please make sure the earphone plug and audio device's jack are clean

2. The earbuds are not fitting comfortably.

- Please modify the earbuds by changing the fitting with one of the 2 additional sets of silicone ear gels included in this package
