# Important Safety Instructions

- Read these instructions – All the safety and operating instructions should be read before this product is operated
- Keep these instructions – The safety and operating instructions should be retained for future reference
- Heed all warnings – All warnings on the appliance and in the operating instructions should be adhered to
- Follow all instructions – All operating and use instructions should be followed
- Do not use this apparatus near water – The appliance should not be used near water or moisture – for example, in a wet basement or near a swimming pool and the like
- Clean only with dry cloth
- Do not block any ventilation openings. Install in accordance with the manufacture’s instructions
- Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat
- Do not defeat the safety purpose of the polarized or grounding plug. A polarized plug has two blades with one wider than the other. A grounding plug has two blades and a third grounding prong. The wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet
- Protect the power cord from being walked on or pinched particularly at the plugs, convenience receptacles and at the point where they exit from the apparatus
- Only use attachments/accessories specified by the manufacturer
- Use only with the cart, stand, tripod, bracket or table specified by the manufacturer, or sold with the apparatus. When a cart or rack is used, use caution when moving the cart/apparatus combination to avoid injury from tip-over
- Unplug the apparatus during lightning storms or when unused for long periods of time
- Refer all servicing to qualified personnel. Servicing is required when the apparatus has been damaged in any way, such as power supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, exposure to rain or moisture, does not operate normally or has been dropped
- Please keep the unit in a well-ventilated environment
- **WARNING:** To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture. The apparatus shall not be exposed to dripping or splashing and that objects filled with liquids, such as vases, shall not be placed on apparatus
- **WARNING:** The wall socket plug is used as a disconnect device. The disconnect device shall remain readily operable
- **WARNING:** The batteries shall not be exposed to excessive heat such as sunshine, fire or the like

- ⚡ This lightning flash with arrowhead symbol within an equilateral triangle is intended to alert the user to the presence of non-insulated “dangerous voltage” within the product’s enclosure that may be of sufficient magnitude to constitute a risk of electric shock
- To reduce the risk of electric shock, do not remove cover (or back) as there are no user-serviceable parts inside. Refer servicing to qualified personnel
- ⚠ The exclamation point within an equilateral triangle is intended to alert the user to the presence of important operating and maintenance instructions in the literature accompanying the appliance
- □ This equipment is a Class II or double insulated electrical appliance and does not require a grounded connection

# Safety Information

---

To ensure reliable and safe operation of this equipment, please read all the instructions in this user guide carefully, especially the safety information below.

## ***Electrical safety***

- The TV set should only be connected to a main power supply with voltage that matches the label at the rear of the product
- To prevent overload, do not share the same power supply socket with too many other electronic components
- Do not place any connecting wires where they may be stepped on or tripped over
- Do not place heavy items on them, which may damage the leads
- Hold the main plug, not the wires, when removing from a socket
- During a thunderstorm or when not using the television for long periods, turn off the power switch on the back of the television
- Do not allow water or moisture to enter the TV or power adapter. Do NOT use in wet, moist areas, such as bathrooms, steamy kitchens or near swimming pools
- Pull the plug out immediately and seek professional help if the main plug or cable is damaged, liquid has spilt onto the set, if accidentally exposed to water or moisture, if anything accidentally penetrates the ventilation slots or if the set does not work normally
- Do not remove the safety covers. There are no user serviceable parts inside and trying to service the unit yourself is dangerous and may invalidate the product's warranty. Only qualified personnel should service this apparatus.
- To avoid battery leakage, remove depleted batteries from the remote control or when not using for a long period of time
- Do not break open or throw depleted batteries in a fire
- Do not mix old and new batteries
- Do not mix Alkaline, Standard (Carbon-Zinc) or Rechargeable (Nickel Cadmium) or (Nickel Metal Hydride) batteries

## ***Physical safety***

- Do not block ventilation slots in the back cover. You may place the TV in a cabinet, but ensure at least 5cm (2") clearance all around
- Do not tap or shake the TV screen, this may damage the internal circuits. Take good care of the remote control
- To clean the TV use a soft dry cloth. Do not use solvents or petroleum-based fluids
- Do not install near any heat sources such as radiators, heat registers, stoves or other apparatus (including amplifiers) that produce heat
- Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong, the wide blade or the third prong is provided for your safety. If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet
- Protect the power cord from being walked on or pinched particularly at plugs
- Unplug the apparatus during lightning storms or when unused for long periods of time
- Refer all servicing to a qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as: if the power-supply cord or plug has been damaged, liquid has been spilled or objects have fallen into the apparatus, has been exposed to rain or moisture, does not operate normally or has been dropped
- Please always connect your television to a power outlet with a protective ground connection

# Parental Menu Options

## Parental Control

Press ENTER to enter the sub-menu and then use the 0-9 to enter the correct password: 0000. If used, this feature can “block” undesirable programming from appearing on the TV. Parental Control allows the user the capability of defining which program rating they consider acceptable to the younger, more sensitive viewer. It can be preset and turned either on or off by the user who specifies the secret 4-number code, the password. The number of hours blocked are specified. General audiences and children blocks should be both programmed into the TV’s memory. Viewer ratings are specified for both TV and the motion picture industry; both rating systems should be used, for complete coverage. The ratings are based on the age of the children.

## Overview

To ensure complete coverage for all TV programs (movies and regular TV shows), choose a rating for MPAA based on the TV Parental Guidelines Rating Systems below. Use the Age Block option to help determine appropriate content for general audiences and for children. In addition to those, you may wish to add additional restrictions from the content block menu and submenus examples below.

## Things to Consider before Setting up Parental Control

Determine which rating you consider acceptable to the viewer (for example, if you choose TV-PG, more restrictive ratings will be automatically blocked; the viewer will not be able to see: TV-PG, TV-14, or TV-MA rated programming.) Do you want to block the auxiliary video source entirely? (Blocks the signal sent by the equipment, such as VCR, connected to the TV Audio/Video input jacks) Or leave unblocked, then choose allowable ratings. Block program “Content” based on individual parameters such as: Strong Dialog, Bad Language, Sex Scenes, Violence Scenes or Fantasy Violent Scenes; in Content Blk option. Select a secret password, in the Set Password option, using the numbers keys on the remote. Do not forget the password; it is the only way you can access the Parental Control menu and change rating selections, or turn Parental Control off. If you wish to disable Parental Controls, you can turn it on or off with the Lock On/Off option.

- You can set different Parental Control viewing restrictions for general audiences and for children, both can be active at the same time
- Simply specifying one content block such as Sex Scenes, will not automatically restrict the programming that appears from the video sources
- Even if you choose to leave the AUX inputs unblocked, the ratings you specify will automatically restrict the programming that appears from the video sources
- You cannot disable Parental Control by disconnecting the TV from power. Block hours will be automatically reset to the original block time setting specified if power is disconnected

## Information

### Motion Picture Association of America (MPAA) Rating System

Grade		Meaning
G	General Audiences	Content not offensive to most viewers
PG	Parental Guidance Suggested	Content is such that parents may not want their children to view the program
PG-13	Parental Guidance Cautioned	Program is inappropriate for preteens, with a greater degree of offensive material suggested than a PG rated program
R	Restricted viewing	Not for children under 17, Strong element of sex and/or violence
NC-17	No Children Under age 17	Not for children under 17 under any circumstances. Strong sexual content
X	Hard Core Films	Same as NC-17 rating
No Rating	No Rating	MPAA Not Rated

### TV Parental Guideline Rating System

Grade		Meaning
TV-Y	Young Children	Content not offensive to most viewers
TV-Y7	Children 7 and over	Considered suitable for children over 7, may contain Fantasy Violence Scenes
TV-G	Parental Audience	Considered suitable for all audiences; children may watch unattended
TV-PG	Parental Guidance	Suggested Unsuitable for younger children, may contain; Suggestive Dialogue, Bad Language, Sex, and Violence Scenes
TV-14	Parents Strongly Cautioned	Unsuitable for children under 14, may contain: Strong Dialogue, Bad Language, Sex, and Violence Scenes
TV-MA	Mature Audience Only	Adults only, may contain Strong Dialogue, Bad Language, Sex, and Violent Scenes

**Canadian Rating:** Canadian English is used throughout all English-speaking Canada (C, C8+, G, PG, 14+, 18+). Canadian French is used in Quebec (G, 8 ans+, 13 ans+, 16 ans+, 18 ans+)

**Note:** The V-Chip will automatically block certain categories that are “more restrictive”. If you block TV-Y category, then TV-Y7 will be automatically blocked. Similarly, if you block TV-G category, then all the categories in the “young adult” will be blocked (TV-G, TV-PG, TV-14, and TV-MA).

# Troubleshooting

If your television does not operate normally or does not turn on, please check the following troubleshooting questions. Remember to also check the other connected electronic devices, such as DVDs or Blu-ray players to pinpoint any problem. # Troubleshooting

---

**NOTE:** When there is a problem in VGA mode (only when VGA mode is applied)

PROBLEM	POSSIBLE SOLUTION
The signal is out of range	- Adjust resolution, horizontal frequency or vertical frequency - Check whether the signal cable is connected or loose - Check the input source
Vertical bar or stripe on background, horizontal noise and incorrect position	- Set the auto configure or adjust clock, phase or H/V position
Screen colour is unstable or is a single colour	- Check the signal cable - Re-install the PC video card

## ***Maintenance***

Early malfunctions can be prevented. Careful and regular cleaning can extend the amount of time you will have with your new TV. Be sure to turn the power OFF and unplug the power cord before you begin any cleaning.

- Do not use your TV in areas that are too hot or too cold, because the cabinet may warp or the screen may malfunction. Your TV works best in temperatures that are comfortable to you
- Storage temperatures are 0° to 50 °C (32° to 122°F)
- Working temperatures are 0° to 40 °C (32° to 104°F)
- Do not place your TV in direct sunlight or near a heat source

## ***Cleaning the Screen***

1. Wet a soft cloth in a mixture of lukewarm water and a little fabric softener or dish washing detergent. Wring the cloth until it's almost dry and then use to wipe the screen.
2. Make sure the excess water is off the screen, then let air-dry before you turn on the TV.

## ***Cleaning the Cabinet***

To remove dirt or dust, wipe the cabinet with a soft, dry, lint-free cloth. Please be sure not to use a wet cloth.

## ***Extended Absence***

If you expect to leave your TV dormant for a long time (such as a vacation), it is a good idea to unplug the power cord to protect against possible damages from lightning or power surges.

# Warning

---

Never place a television set in an unstable location. A television set may fall, causing serious personal injury or death. Many injuries, particularly to children, can be avoided by taking simple precautions such as:

- Using cabinets or stands recommended by the manufacturer of the television set
- Only using furniture that can safely support the television set
- Ensuring the television set is not overhanging the edge of the supporting furniture
- Not placing the television set on tall furniture (for example, cupboards or bookcases) without anchoring both the furniture and the television set to a suitable support
- Not placing the television set on cloth or other materials that may be located between the television set and supporting furniture
- Educating children about the dangers of climbing on furniture to reach the television set or its controls

If your existing television set is being retained and relocated, the same considerations as above should be applied.
