

WIRELESS CHARGING MOUSE PAD

8081233

Instruction Manual

INCLUDED

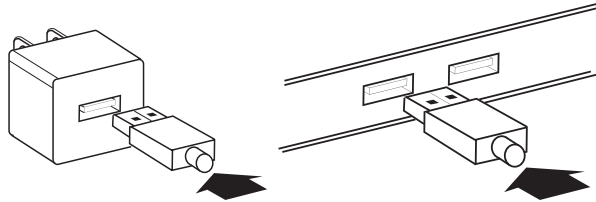

- Wireless charging mouse pad
- USB charging cable
- Instruction manual

FEATURES

- 5W Qi wireless charging
- 2-in-1 mouse pad and wireless charger keeps your desk tidy
- Non-slip base keeps pad firmly in place

GETTING STARTED

1. Connect the included USB cable to a wall adapter (not included) or to a USB port on your computer.

2. A blue LED will be ON when the mouse pad is charging.

CHARGING IN SLEEP MODE

Some laptops may not provide power to the USB port when they're in sleep mode. To change this default setting, follow the steps below.

WINDOWS LAPTOP

1. Click "Control Panel".
2. Select "Hardware and Sound".
3. In that menu, choose "Device Manager".
4. Find "Universal Serial Bus controllers".
5. Choose "Intel® USB Host Controller" to connect with mouse pad.
6. Under "Power Management" unselect the option "Allow the computer to turn off the device to save power".
7. Your laptop will now supply power to the device while it's in sleep mode.

NOTE:

1. If your laptop still can't supply power to the USB port in sleep mode, you may need to enable "USB Wake Support" in BIOS.
2. If after completing these steps your laptop still cannot supply power in sleep mode, it may not be compatible with charging in sleep mode.

Some laptops have an "always on" USB port, marked by a  symbol. These USB ports will charge your device if the laptop is in sleep mode.

CHARGING OTHER DEVICES

Place a Qi-enabled device on the mouse pad. Make sure your phone case is not thicker than 4mm.

The LED will flash blue and green if metal or magnetic objects are placed on the wireless charger.

Input:	5V/2000mAh
Output:	5V/1000mAh
Compatibility:	All Qi standard devices
Charging Distance:	4~8 mm
Frequency:	110~205 kHz
Conversion:	≥ 72%
Measurements:	270 x 190 x 6 mm

WARNING

- **DO NOT** place metal or magnetic materials on the wireless charger
