INSTALLATION:

1. Open the driver installation file and double-click the file icon to enter the installation wizard.
2. Follow the wizard's instructions.
3. After the installation, the program's interface automatically opens.
You can double-click the program's shortcut icon to open the settings interface.

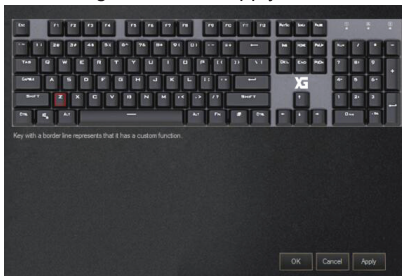

SINGLE-KEY ASSIGNMENT

To import macros to your keyboard, you must first have predefined macros in the macro module to perform the following operations.

1. If the Z key is set, click the key first and a prompt will appear. Then, click the macro to pull up the macro list.

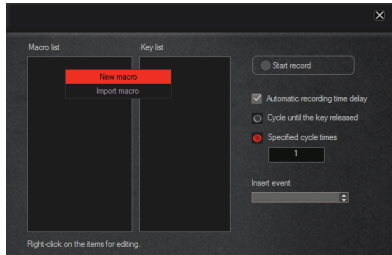

2. Select a macro name. Click “OK”. The on-screen keyboard will have a red box outlining the Z. Click Apply to save the settings.

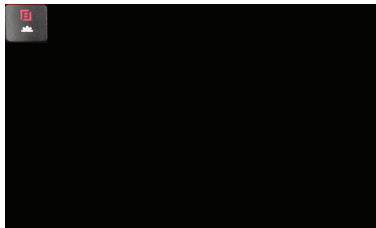

CREATING NEW MACROS:

1. In the driver interface, click the “Macro Editor” button. The macro creation box will appear. Right-click and select to create a new macro, or import a macro.

2. Select “New macro”. A box to enter the macro name will appear. Enter your desired name, click “OK” and save the settings. Your new macro will appear in the macro list.

CONFIGURATION FILES:

The driver supports the application of three configuration files. Select any one configuration (1-3), select the parameters and click “Save”.

UNINSTALLING:

1. Open the control panel of your PC.
2. Open the “Programs and functions” window.
3. Click “Gaming Keyboard” and right-click “Uninstall” to complete the program’s uninstall.
