End call	Press the button.	
Reset	Insert the end of a paper clip into the reset hole.	

PAIRING

1. Turn the speaker ON.
2. Turn the Bluetooth® ON in your device settings and select "HRSP 5024".
3. Once paired successfully, speaker will chime and the blue LED will blink quickly.
4. If you fail to pair your device or you want to pair it with a new device please repeat the steps outlined above.

NOTE: The speaker will automatically pair with previously paired devices provided the Bluetooth® is ON and within range (10m). When you disconnect the speaker while paired, the blue LED light will start to blink quickly and the speaker will chime. The speaker has entered into pairing mode. If there is no device paired within 5 minutes, the speaker will turn OFF.

CHARGING

This speaker has a built-in rechargeable Li-Ion battery. **Fully charge the speaker before first use.** Charge the battery as follows:

Use the included charging cable to fully charge the speaker before first use. It will take approximately 2.5 hours to fully charge using a PC USB port.

- The red LED will be ON while the speaker is charging
 - The green LED will turn OFF once charging is complete
- NOTE: When the battery is at 10% the red LED will flash quickly, at 3% the speaker will turn OFF.

USING THE POWER BANK

1. The unit has a charging out feature to support your portable devices with a back-up power supply.
 2. Connect your portable device by its charging cable to the USB port.
 3. Press the button.
 - Green LED ON= 67-100% battery life.
 - Orange LED ON=34 - 66% battery life.
 - Red LED ON=less than 33% battery life.
- The charging current is 2.1A max

HANDS-FREE SPEAKERPHONE

When a smartphone is connected to your speaker follow the steps below to take calls hands-free.

1. If there is an incoming call while streaming music, the speaker will beep to notify you.
2. Press the button to pick up the call; press the button again to hang up the call.
3. Press and hold the button for one second to reject the call.
4. To return a call, press and hold the button.

LINE-IN

1. Use the supplied 3.5mm cable to connect the speaker directly to your device. The Bluetooth® will disconnect and the speaker will play music from LINE-IN. The green LED will be ON when playing music using line-in.

TWS (TRUE WIRELESS STEREO) CONNECTION

- Connect two HR Maximus speakers for a true wireless stereo experience. To connect:
1. Turn the Bluetooth® feature on your smartphone OFF and ensure neither speaker is connected to any device via Bluetooth®.
 2. Turn both speakers ON and place within 7m (22.9ft) of each other. Press the button on one of the speakers twice the LED will flash blue and green and they will pair automatically. After successful pairing, the blue LED on the main speaker will flash slowly and the blue LED on the second speaker will turn ON.
 3. Turn the Bluetooth® ON in your device settings and select "HRSP 5024". After pairing to your phone, both blue LEDs will stay ON.
 4. To disconnect, press and hold the button.

NOTE: This speaker is in compliance with the specified Bluetooth® version. It does not guarantee compatibility with all the functions on every Bluetooth®-enabled device. Please check your mobile phone's user manual for compatibility and functionality.

TROUBLESHOOTING

No Sound:

- Ensure the speaker is charged and has enough battery power for operation
 - Ensure the speaker is switched ON
 - Ensure Bluetooth® device is ON
 - The volume of the speaker is too low, adjust the volume to an appropriate level
- WARNING: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

THE FCC WANTS YOU TO KNOW

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

The device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

INDUSTRY CANADA NOTICE

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions:

- (1) this device may not cause interference, and
- (2) this device must accept any interference, including interference that may cause undesired operation of the device.
