

Thank you for purchasing the VITAL TOSLINK TO RCA ANALOG AUDIO CONVERTER.

INCLUDED

- Audio converter
- Power supply

FEATURES

- Digital audio (PCM) to analog converter with loopout function
- Converts digital coaxial or digital optical audio signals to analog L/R audio. The converter is a high-quality DAC (digital to analog converter), allowing for simple audio signal conversion with no degradation, and supporting variable sampling rates for maximum fidelity
- One input (digital coaxial or digital optical audio, digital coaxial priority)
- One output (analog L/R audio)
- With no signal or signal format error indicator

SPECIFICATIONS

Converter type:	D to A converter
Digital input type:	Coaxial and optical
Support digital audio format:	LPCM
Input impedance:	75 ohms
Minimum load impedance:	10K ohms
Frequency response:	44.1-192 kHz sample rate
DC input voltage/polarity:	12V/centre positive

CAN ICES-3(B)/NMB-3(B)

THE SOURCE - WARRANTY

The Source warrants that this product will be free from defects in materials and workmanship for a period of twelve (12) months from the date of purchase. Within this period, simply take the product and your proof of purchase to any The Source store or participating dealer and the product will be replaced (where available) without charge. Any product which has been subject to misuse or accidental damage is excluded from this warranty.

This warranty is only applicable to a product purchased through The Source company-owned stores or participating dealers in Canada where the warranty is included with the product. While this warranty does not confer any legal rights other than those set out above, you may have additional statutory rights which will vary under the laws of the various countries, states, provinces and other governmental entities in which The Source operates. This warranty is subject to all statutory rights you may have in Canada.
