MacBook	2016 MacBook 1.1/8GB/512GB/12" EN	\$430.00

*Some models are not eligible for trade in. Pricing is subject to change and dependent on condition.

Find out which MacBook model you currently own:

1. On your MacBook, go to the Apple menu (upper-left corner) and click About this Mac.
2. In the window that opens, you'll see a serial number. Highlight it and copy it.
3. Head to Apple's Check Coverage page and paste in the serial number.

Conditions:

GOOD: No functional problems, may have very minor signs of wear (i.e., scratches, smudges). Computer functions properly with no performance issues.

FAIR: May have signs of wear, but no significant scratches or dents. Computer functions properly with no performance issues.

POOR: Functional and in working condition for the intended purpose with no major technical problems. May have cosmetic defects such as dents, scratches, stickers or smudges. A drive door may be missing, or there may be a crack in the case, but the unit still operates as intended.

NOT WORKING: Does not power on or has major physical damage. If a component required for operation is missing or not installed (i.e. memory, video card or hard drive) the trade-in item will be considered non-working and be given no value.

If the serial number is not visible on the MacBook, it is not eligible for trade in.
